experience

student ux/ui designer · garmin

spring semester 2019 • west lafayette, in

Explored issues related to discoverability & usability of Garmin Connect mobile app. Focused on primary research, ideation, & prototyping. Maintained dual role of team member & leader.

student ux/ui designer · hewlett-packard

fall semester 2018 • west lafayette, in

Identified issues in a complicated data storage system. Explored & executed multiple onboarding prototypes backed by research. User tested web app mockups to find pain points & aspirations.

research assistant · krannert school of management

summer 2018 • west lafayette, in

Researched & utilized different emerging technologies (drones, Hololens, 3D printing). Prepared and presented Purdue's Smart Lean Engagement Center to international sponsors.

student ux/ui designer · crema

spring semester 2018 • west lafayette, in

Explored & researched possibilities within social event planning app. Focused on sketching & iterating within the design process to create a unique application.

sales ops intern · mobileiron

summer 2017 • mountain view, ca

Increased data quality through data preparation, validation, & correction to support the Sales team's GTM analysis & planning processes. Worked with international customer accounts to identify & correct data errors.
